Easily work together from the same playbook.
- **Sync data sources**
Gain clear insights from streamlined reporting.
- **Sync with Self-Serve**
Give your B2B customers a B2C experience.

Increase customers' revenue and profitability by enabling sales teams with **CPQSync** by Cincom.

Selling as Easy as 1-2-3

1

Salesperson opens product catalog within the Dynamics 365 interface and selects the product they want to configure.

2

Salesperson configures product options based on customer needs identified via guided selling.

3

Salesperson quickly generates a branded, customized quote and issues the complete proposal to the customer.

Benefits of CPQSync

- Quote to order end to end
- Configure product and pricing intuitively.
- Leverage Power Automate to integrate data and workflows.
- Eliminate knowledge silos.
- Insight and visibility into your teams' activities
- Improved efficiency for Sales, IT and Engineering
- Faster, more accurate sales quotes
- Control margin and profitability on deals quoted.
