EXPLORING THE SHOPIFY – BUSINESS CENTRAL CONNECTOR

Laura Soto

TRIANGLE

Lead Functional
Consultant

WHAT ARE WE GOING TO SEE TODAY?

Connector's setup

How an order placed on the website arrives to Business Central

Limitations

What is coming in April's release

DEMO

LIMITATIONS

One generic customer per store

Shipping charges associated to an account

Not extensible

Only synchronize 1 item image

Does not allow to use a formula to calculate the stock

Does not allow to assign specific serial numbers to items

Metadata fields created in Shopify do not have a standard synchronization

WHAT IS COMING?

Extensibility

Returns
