NMB GATEWAY FOR DYNAMICS 365

A native Microsoft experience that automates and optimizes your supply chain

OVERVIEW

Gateway for D365 was designed for Microsoft Dynamics users and provides off-the-shelf integration and enhancements to our powerful TMS, Parcel, and Compliance solutions.

If you're a Microsoft Dynamics user, a whole new world of cost savings and customer satisfaction has just opened up to you. Gateway for D365 is a Microsoft Certified Dynamics 365 Finance and Supply Chain Module that provides secure, real-time and easy to manage integrations between our supply chain solutions and Microsoft Dynamics. Gateway for D365 is available through Microsoft AppSource.

SOLUTIONS AT A GLANCE

Compliance

Manages your export compliance risk for trading partners, transactions, and other party relationships.

Parcel

An enterprise-class shipping solution that enables companies to pack and ship smarter, reducing time and cost per package with easy-to-use shipping and compliance management.

Transportation Management for Shippers

Manage all modes of transportation in a single system and centralize control of the entire transportation process.

KEY FEATURES

Scale Infrastructure and quickly adapt technology based on changing business needs.

Improved overall supply chain management in a collaborative environment.

Print Bill of Lading (BOL), Certificate of Origin (COO), Commercial Invoice (CI), USMCA agreement, Canada Customs Invoice, and the Shipper's Letter of Instruction for international shipments in no time.

Fast and easy implementation with easy web-integration, so you are up and running quickly.

Imposes industry-recognized "best practice"of automated compliance screening.

SOLUTION

Gateway for D365 can be deployed to suit your business. With fast implementation, your solution is up and running quickly, accelerating the delivery of business benefits and return on investment.

Manage all modes of transportation with the Transportation Management for Shippers solution that enables users to quickly adapt to changing business needs.

With Parcel, users have access to the broadest set of carriers in the industry, serving both domestic and international requirements, supporting even the most sophisticated business rules such as break bulk advance rate shipping, and multi-leg zone skipping. Accelerate the critical last mile, handling fluctuating volume from one global platform with visibility and access to international shipping services. Parcel produces AES filing requests to census bureau portal within your shipping process in matter of seconds. Print Bill of lading (BOL), Certificate of Origin (COO), Commercial Invoice (CI), USMCA Agreement, Canada Customs Invoice, and the Shipper's letter of instruction for international Shipments easily and quickly.

Manage export compliance risk for trading partners, transactions, and other third-party relationships with Gateway Compliance solution, which imposes industry-recognized, best practice automated compliance screening.
