Direct Integration Into Microsoft Dynamics 365 SCM

THE PROBLEM

Struggling With Integration Automation? You're Not Alone.

24%

Of companies say their biggest integration challenge is lack of back-office application integration.

30%

Say end-to-end integration process automation will drive the most value for their business ecosystems.

* Dimensional Research, 2023 State of Ecosystem Integration Market Report

So how can companies quickly and accurately achieve automated back-office integration?

THE SOLUTION

Cleo's Microsoft Dynamics 365 SCM Accelerator

Microsoft Dynamics 365 SCM

Cleo Integration Cloud™

- Marketplaces
- eCommerce
- Retailers
- XPO Carriers
- Freight Brokers

The Microsoft Dynamics 365 SCM Accelerator contains pre-built schemas, rulesets, business processes, and other resources used for accelerating the development, deployment/execution, and testing of common integrations.

THE RESULTS

Cleo's Microsoft Dynamics 365 SCM Accelerator Enables You To...
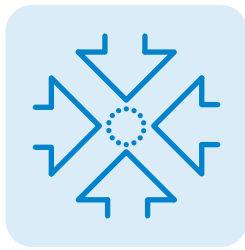

Speed Time-To-Revenue

Speed time-to-revenue for EDI, eCommerce, and marketplace orders by configuring integration flows. No more coding.

Automate Processes

Automate processes for order capture, acknowledgment, fulfillment update and verification, and customer syncs and invoicing.

Reduce Complexities

Reduce implementation complexity, risk, errors and system downtime by leveraging proven, pre-built business process logic.
