End-To-End Solutions For Manufacturing & Distribution

SALES & ORDER ENTRY

- Easy order entry interface that supports barcode scanning
- Advanced search tool to find products quickly
- Accept multiple payment types
- Track lost sales and price changes
- Powerful configurator to simplify order creation
- Automatically generate BOMs and routings
- Sophisticated rules builder to customize product options
- Easily store external documents on Sales Orders, Items, Customers, etc.

PROCUREMENT

- Analyze historical stock trends to predict future demand
- Improve inventory levels to avoid stockouts and surplus
- Optimize reorder points based on supplier discounts and incentives
- Create weekly, monthly, quarterly, or annual forecasts
- Create vendor-based summaries of material requirements

INVENTORY & CYCLE-COUNTS

- Easily perform manual or barcoded inventory counts
- Automatically reconcile serial number discrepancies
- Create count sheets or perform ad hoc inventory counts
- Retain historical statistics and apply trend analysis

INVENTORY PLANNING

- Create reordering strategies based on demand and vendor incentives
- Manage automated purchase planning for distribution extremely quickly without reschedule or cancel messages
- Create realistic production forecasts based on trends

WAREHOUSE MANAGEMENT

- Integrate mobile devices to scan barcodes and perform warehouse tasks
- Print barcode labels and documents from the mobile devices
- Process warehouse receipts lightning fast by scanning items
- Easily track groups of items with license plating
- Record or generate lot and serial numbers throughout the warehouse
- Use mobile computers for picks including wave, batch, and tote picking
- Perform item and bin inquiries from a handheld device
- Efficiently perform inventory, warehouse, and ad hoc movements

PRODUCTION SCHEDULING

- Generate realistic advanced finite capacity schedules
- Optimize production throughput and equipment utilization
- Visualize production schedules and adjust them with drag-and-drop
- View all operations associated with a specific job
- Schedule time for equipment maintenance while minimizing disruptions

SHIPPING

- Rate shop shipping costs in real-time right from Business Central
- Connect with hundreds of parcel and LTL carriers
- Track individual shipments
- Maintain package management details for each shipment
- Ensure quality by using barcode scanners to package shipments
- Easily manage hazardous material documents

SHOP FLOOR

- Use barcodes to capture employee shop floor time
- Capture consumption, output, scrap, and quality
- Record and report on non-productive and rework time
- Analyze routings to help optimize production
- Track product quality
- Track and analyze all safety-related incidents and activities
- Store manufacturing-related documents within Business Central

Not just great apps, Insight Works carries a wide selection of great hardware too!

Insight Works offers a wide selection of mobile computers, handheld barcode scanners, printers, accessories, and comprehensive service plans. Whether you are just getting started with mobile devices or are looking to upgrade old units, Insight Works is your one-stop shop for Dynamics 365 Business Central hardware, apps, and service.
