## Easy-to-use cards, spend limits, approval flows, vendor payments, and more

Ramp is the ultimate platform for modern finance teams. From corporate cards and expense management, to bill payments, accounting automation and procurement. Ramp's all-in-one solution is designed to automate finance operations and build healthier businesses. Over 25,000 businesses have switched to Ramp and we save the average 5% on expenses and close their books 8x faster.

**PLUS**

## Ramp Plus users close books 8x faster with direct integrations, managing expense policies, reimbursements, and bill payments in one place.

### Capture spend data in one place

Automatically sync all your necessary data from Business Central, including your transactions, bill payments and reimbursements and store them into the corresponding journals and purchase invoices

### Vendor Creation

Ramp will identity and sync new vendors not already in your Business Central instance so you have the most accurate record of your vendors to review.

### Chart of Accounts & Dimensions

Improve financial reporting by bring over all dimensions and fields to ensure comprehensive transaction coding. Modify and customize coding according to your preferences.

### Features we support:

- ✓ Transactions
- ✓ Bill Pay
- ✓ Reimbursement
- ✓ Statements Payments
- ✓ Cashback
- ✗ Procurement
- ✗ International

---

### Business Central and Ramp: unified financial sync

**Transaction**

Ramp card transactions show up as journal lines, and populate each credit card transaction as two journal lines:

- **Credit** Ramp Card Liability Account
- **Debit** Expense Account

**Reimbursements**

Ramp reimbursements show up as unposted journal lines, and populate each reimbursement as two journal lines:

- **Credit** Cash Account
- **Debit** Expense Account

**Bill Pay**

Ramp bills come in as unposted invoices with attached PDFs, while Ramp payments create unposted vendor payments and initiate a "Ramp" payment journal.
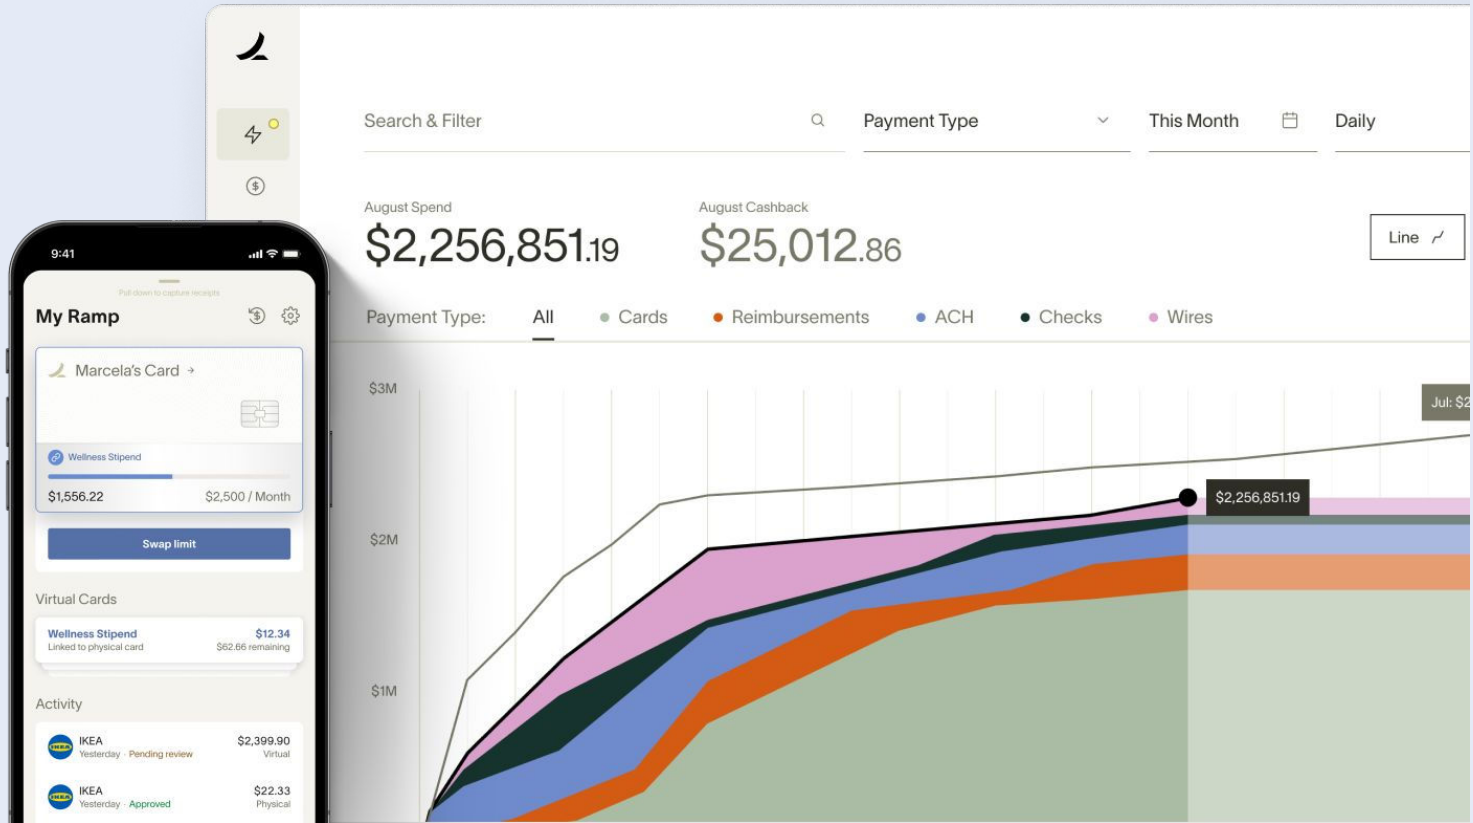

**Statement Payment**

Statement payments from Ramp will be synced to the Ramp statement payment journal. Furthermore, when a statement payment is synced it will populate as one journal line with the cash account being the balancing account.
