# The Next Generation of Business Central Reporting

Launch into the universe of unlimited reporting possibilities with the only lightning-fast Excel reporting and analytics solution built specifically for Microsoft Dynamics 365 Business Central cloud.

## Reporting Built for Everyone

Create any report you need by accessing all of your Business Central data, including customizations, and take advantage of our prebuilt report library.

Eliminate the technical bottleneck with user-friendly, intuitive reporting and analytics that everyone can use immediately.

Experience success from day one and be up and running in 30 minutes, with access to self-paced training videos and live support.

## One Unified, Secure Cloud Platform

Simplify data management, reporting, and analytics with an innovative, centralized reporting platform built on the Microsoft cloud.

Seamlessly integrate your existing Microsoft technology stack and securely login using your Microsoft credentials.

Capitalize on Microsoft Azure's unmatched speed, security, scalability, and cost savings, which will adapt and fit your business needs for the life of your business.

## Familiar Excel User Interface

Leverage existing Excel skills to easily build, export, and format reports in Excel without extensive training.

Build limitless, simultaneous reports and queries without tying up Excel or other business applications.

Run lightning-fast reports with the push of a button to have information at your fingertips on any device or web browser.

## Seamless Power BI Integration

Leverage optimized Business Central data directly in Power BI with Cosmos' seamless two-way integration.

Create dashboards and data visualizations in seconds without the need for SQL or DAX coding skills.

Find answers and spot opportunities by consuming your Power BI content from directly within Cosmos.

"It used to take me half a day and a separate laptop to run and calculate my commission report using our on-premise reporting software. With Cosmos, I can run this report in seconds!"

– Amy Axness,  
Director of Finance  
J&D Manufacturing
