

Spend less time on accounts receivable and reduce late payments with end-to-end automation

Late payments are a growing challenge, with the average business currently owed hundreds of thousands in overdue invoices (Intuit). 87% of businesses say their invoices are typically paid late (Late payment report), and 7.5% of all invoices end up being written off as bad debt (Sage).

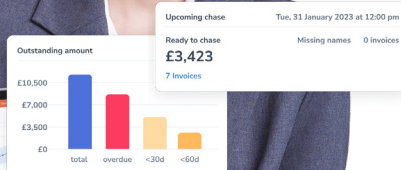

Without the right processes in place, chasing payments becomes a constant burden, consuming valuable time and resources for your finance team. A buildup of overdue invoices creates cash flow uncertainty, making it harder to plan for the future and invest in growth. For finance teams, this means more stress, less efficiency, and fewer opportunities to drive strategic initiatives that support business success.

Waiting to get paid shouldn't be the norm. Predicting, chasing, and collecting revenue should be simple, efficient, and stress-free. Chaser helps you take control of accounts receivables by automating invoice chasing, reducing late payments, and safeguarding your revenue. With intelligent insights, proactive chasing, and flexible payment solutions, you can improve cash flow, minimize bad debt, and focus on what really matters-growing your business.

I love how flexible Chaser is. It is easy to use, has great results and I've been really impressed by how easy it is to adapt the settings to our continually changing needs. We have saved at least 15 hours per week, and that's me being stingy.

Rossana Vittorelli
Credit Control Manager,
Love Brands

Save time with automation

Automate the entire accounts receivable process, reducing manual follow-ups and administrative tasks.

Track everything automatically

All invoices and customers are logged in one place with any communications (including phone calls and email replies) automatically tracked, so you have one single source of truth.

Improve cash flow and reduce bad debt

Gain better control over revenue by proactively managing overdue invoices and reducing the risk of uncollected payments.

Improve customer relationships

Ensure polite, professional, and personalized communication that reflects your brand while securing on-time payments. Offer greater flexibility and thank customers for payments automatically.

Efficiently reach customers

Send personalized automated follow ups via a range of channels including email, SMS, posted letters, and automated debtor phone calls.

Make informed decisions with real-time insights

Access real-time credit reports, payment predictions, and revenue forecasts to make strategic financial decisions with confidence.

Receive invoice payments faster

Use AI-driven insights to engage customers through the most effective channels at the right time, increasing payment success rates.

Access seamless payment solutions

Offer flexible payment options to customers, making it easier for them to settle outstanding invoices quickly and conveniently.

15+ hours saved per week

Businesses like yours have been able to save over per week using Chaser's automation

"Very happy from the start. Helpful onboarding team, easy to implement, and very happy with the results, reducing our debtor days from 60 to approx 24 in a matter of months."

Ravi Kesari. Director
Wren Accountancy Services Ltd

Chaser helps businesses get paid sooner with its all-in-one accounts receivables automation platform, debt collections and outsourced credit control services. Users can credit check, monitor debtors, chase late invoices via SMS and email, collect payments, recover debt and reconcile accounts, all in the same platform. By sending automatic and deeply personalised payment reminders, the software and service provider effectively gets invoices paid on time without losing the human touch. To date, Chaser has helped users chase over USD 30 billion in overdue invoices. Chaser was named Best Technology Provider at the Credit Strategy Awards (2024), won the Best Use of Innovation In Business award (Management Today, 2023), Xero App Partner of the Year (2023) and won Best Use of Technology at the Credit Awards (2022).
