

Make accounts payable automation fast and easy with Dooap

Built for Microsoft Dynamics 365, Dooap delivers responsiveness you can count on.

Reviewing invoices can be time-consuming, and errors can be costly. Imagine if you could take the friction out of your accounts payable process with the power automation and AI. You can experience the fastest, easiest AP automation with Dooap.

AP automation that flows easily

Dooap makes it easy to manage every step of your AP process, whether you need to receive, match, approve, or analyze invoices. Fully integrated with Microsoft Dynamics 365 and available as an easy-to-use mobile app, Dooap is designed to work the way finance works. It is fast, intuitive, and backed by expert support whenever you need it.

Automation built for the ways finance teams work

Unleash AI

Save time and reduce errors with AI that can interpret invoices.

Go mobile

Review, comment, and approve invoices from anywhere with an intuitive mobile app.

Deploy without headaches

Get started easily with simple pricing, smooth ERP integration, and fast onboarding.

AP automation built for Dynamics 365

Dooap is a SaaS application that integrates seamlessly with Dynamics 365 Finance, utilizing the data you already have there and following your Dynamics 365 business logic and rules. Users can log in with the same credentials they use for Dynamics 365, and data is stored securely on Microsoft Azure.

SA Recycling transformed its AP process with Dooap

Challenge

With more than 150 locations, SA Recycling is a world leader in metal recycling and processing. With an accounts payable team of 14 personnel handling a large volume of invoices, they needed an AP automation solution to drive efficiency.

Solution

SA Recycling chose Dooap for its automation capabilities as well as its useful mobile app. As SA Recycling has grown over the years, Dooap has enabled their AP team to manage their process without headaches.

Benefits

- Thanks to the mobile app, SA Recycling can get fast approvals from users across the various states and time zones it operates in
- Dooap's Power BI functionality makes it easy to pull and share data from reports, identifying root causes faster and improving training processes
- SA Recycling has used Dooap to automate low value-add activities

“

I would tell anyone thinking of doing AP automation with Dooap – **do it!**

Jump onboard – it's **quick**, **easy**, and **painless** and they're with you **every step of the way.**”

Michelle Wagner, AP Director,
SA Recycling

Take the easy path to AP automation

With Dooap, you can take the **fastest, easiest path to AP automation.**
