

# AI-Driven, People-Centric Digital Transformation Consultants

## ABOUT US

**Experts in Failure.**  
**Partners in Success.**

Most AI and digital transformation efforts fail. C5 Insight helps organizations beat the odds with business-first, people-centric strategies that ensure Microsoft solutions deliver immediate value and sustainable outcomes.

DYNAMICS 365 CE • MICROSOFT 365 • COPILOT • POWER PLATFORM • AZURE AI

### Strategy & Business Advisory

Consulting that aligns business goals, leadership priorities, and technology decisions through strategic planning and roadmaps.

### Implementation & Modernization

Design, deploy, and optimize Microsoft solutions that improve performance, strengthen security, and drive business results.

### Change Management

Training and adoption programs that enable teams to champion change and embrace new ways of working with technology.

### Data & AI Readiness

Assess data, governance, and security gaps so AI delivers trusted insights and business value without added risk.

### Automation & Custom Development

Build automations, custom apps, and AI agents that extend platform capabilities and free up teams for higher-value work.

### Turnkey Accelerators

Ready-to-deploy solutions for common business scenarios across Microsoft 365, Dynamics 365, Power Platform, and Copilot.
